

Appl. No. 10/649,580
Amdt. dated March 28, 2005
Reply to Office Action of December 3, 2004

PATENT

Amendments to the Specification:

Please replace paragraph [0027] with the following amended paragraph:

[0027] The servo gate signal shown in Figure 3 indicates whether the data encoded in the analog signal ~~is~~ is interpreted as user data or servo data. When the servo gate signal is LOW, the disk drive system interprets the analog signal as containing a user's data. When the servo gate signal is HIGH, the disk drive system interprets the analog signal as containing servo data.
